# HIGHLIGHT FROM YOUR MID-SEMESTER FEEDBACK

---

I really appreciate all of your feedback! They help me to tailor our section better toward your needs :))

- More guidance on lab
- Maintaining a quiet environment when I'm talking
- More explanations on problems/concepts
- Going slower on harder problems
- More engagement
- More examples
- Various options on pacing

# NEW LAB FORMAT (?)

---

- I'll walkthrough each question as in discussion, but without giving you the exact solution
- A reminder on learning cooperatively:
  - For labs, you are allow to collaborate however you want as long as you are all learning
  - For homework, you can only look at other's code to help them if you finish already
  - For projects, you can share everything with your partner
- When to ask for help in lab?
  - When you've be stuck on a problem for more than 5 minutes
  - When you try to google something - the easier way may be to just ask!
  - You don't need to make eye contact with any of us before asking for help! Just raise your hand and me or our AI's will come to you soon

Now let's welcome our AI Jiaxin  
(Claire) for a mini-lecture on OOP 🎉

---

[Slides are here!](#)

# ATTENDANCE! 🤠

---

[go.cs61a.org/mingxiao-att](https://go.cs61a.org/mingxiao-att)

- The attendance form and slides are both linked on our [section website](#)!
- If you finish early, let me or any of the AI's know and we'll check you off
- Once again, please do remember to fill out the form by midnight today!!
